WL206i

Main Application

Watani Power Sprayer is one kind of portable, flexible and efficient machinery for plant protection. It is mainly used in prevention and cure of diseases and pests of plant such as cotton, rice, wheat, fruit trees, tea trees, banana trees, etc. It can also be used for chemical weeding, epidemic prevention, sanitation protection in cities, vegetable protection, etc.

Main Features

- * This machine adopts gear structure to decrease speed, so it is very durable.
- * The main part is the plunger of two directions type. The structure is simple and compact, so it is easy for the maintenance.
- * This machine has high pressure, big flow and good efficiency, so the protection effect is very obvious.
- * The main spraying parts are three nozzle which are developed and only adopted by our factory in our country. So the spraying range is wide.
