

ROAD CUTTER

Features

- * As cutter is well balanced to stable performance, the cutting is held uniform in cut-depth, yet is speedy
- * Smooth and steady up-and-down (of cutting blade) can be guaranteed due to its screw-type mechanism
- * As body-handle is long and possible to adjust, it is easy to make turn and / or change directions

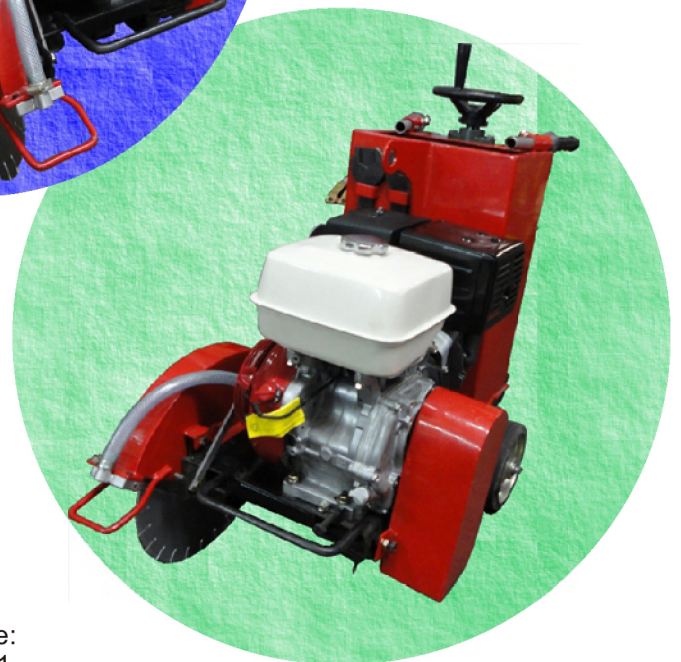

Application

- * Cutting concrete and asphalt
- * Road construction, water-piping, gas-piping, telephone and electric cable-laying, concrete ditching works
- * Cutting concrete pavement
- * Setting up poles/trees on concrete/Asphalt side-walks
- * Any concrete/Asphalt cutting required at building construction, subway, etc.
(blades are sold separately)
(All models are applied for utility models and for registered design)

Perform sharp, yet stable cutting
