

The Baker[®]

MODEL : HOP-6A.M2

SPECIFICATION

Power	1450 W
Temperature	65 °C - 245 °C
Efficiency	Every Tray 3-5 minute
Dimension	560 x 420 x 680 mm
Stock Code	880705002A
Oil dosage	50ML / once
Sugar dosage	100g / once
Corn dosage	150g / once

FEATURES

- Made of stainless steel welded construction
- Include a one-piece clean-in-place stainless steel or nickel plated all-steel kettle that has a twist lock plug for easy removal if necessary, a heated corn deck, drop shelf, and tempered safety glass windows
- Contains a heat lamp that keeps popcorn fresh and warm until serving
- Rocker control switches at eye level provide easy operation with illuminated kettle heat switch
- With a single push of a button, the kettle will heat, pop a batch of corn, and shut off after one popping cycle
- The top is painted with Cretors special powder coating that resists scratching
- A matching two-wheel red cart is also available
- The popper is UL and UL Sanitation approved
- The optional One-Pop Feature is a patented Cretors exclusive feature
